

Fixed bed filter – Type 1

Model: NAC-00160

Area of use

Scalable fixed bed filter and degasser module (1 section) designed for new or existing land-based aquaculture facilities to increase fish feed capacity of 50-300 kg feed per day. It can be customized for different types of aquaculture systems (RAS and FTS-R). The prefabricated units are easy to install and allow seamless integration while the existing aquaculture facility remains operational.

- Compact and space efficient
- 2 systems in 1 module
- Prefabricated and integrable with existing systems
- Automatic monitoring and control system
- Low maintenance
- Tailored for RAS and FTS-R

Materials

- PE100 – EN12201
- Stainless steel – EN 1.4401
- GRP – EN 13706-3:2002

Accessories

- 1 pipe double-walled
or 3 pipes 20 mm PE
- Transport friendly
