

Center outlet PE well

Model: NAC-00820

Area of use

Scalable center outlet PE well designed for new or existing land-based aquaculture tanks. The outlet well presents an outlet grid whose target is the appropriate movement of the outflow, at the same time acting as a barrier for fish. Suitable for fish purging and fish transfers. The grid has an overture at its base that assists with a center ball allowing you to choose between fish-no fish outflow.

Mesh separation is adjustable to fish size.

- Scalable
- Transport friendly
- Corrosion resistance

Materials

- PE100 – EN12201
- Stainless steel – EN 1.4401

Accessories

- Outlet grid
- Center ball for outlet grid
- Grading plug
